Don’t Leave Money on the Table

Items With Allowances Are Available Now!

Several items in our portfolio are currently carrying an allowance — an easy conversation starter with your food service accounts. Use these deals to drive placement with new customers, increase orders with existing ones, or help an account swap in a new product with less risk. Bring these opportunities up on every call: your accounts will appreciate the value, and your numbers will too.

Check with your manager or the latest promo sheet to confirm current eligibility before quoting.
